- GeoStammtisch = geobeers dutch style
- Liaison with the Dutch “geo-field”
- OSGEO.nl day: 2013 Delft, 2014 Den Bosch
(within GeoBuzz conference & fair)

OSGEO.nl new website

The screenshot shows the OSGeo.nl website homepage. At the top left is the logo "OSGeo.nl" with a green circular icon containing a stylized cross. The top right features social media icons (envelope, Twitter, Facebook) and language selection (English, Dutch). A navigation bar below includes links for "Thuis", "Over ons", "Meedoен", "Agenda", "Nieuws", "Community", and "Sponsors". To the right is a search bar with a magnifying glass icon. The main content area displays two images: a QGIS interface showing a map of a town with various layers selected, and a photograph of people at a workshop with a map on a screen. A banner overlay on the workshop photo reads "OpenTopo workshops" and "Tijdens de OpenTopo workshops die Jan Willem van Aalst heeft gegeven konden de deelnemers zelf meedoen." Below the images is the slogan "Wegwijs in open geo".

"Wegwijs in open geo"

De missie van OSGeo.nl is het stimuleren van het gebruik en de ontwikkeling van open source software voor geo-informatie in het Nederlandse taalgebied met als slogan: "Wegwijs in open geo".
