Agenda

- Why a thesis and what is it?
- Thesis Topic determination
- The research semester
- Q & A

Why an MSc Thesis, and what is it...?

The MSc Thesis

In the 4th semester you have to prove that you have gained the competencies to become an **independent researcher**

Our website says "*The Master's Thesis is a scientific elaboration within a time period of six months.*"

- **six months** = 1 full semester (30 EC)
- **elaboration** = writing a ±50 page thesis, guided (not instructed!) by a supervisor, plus presenting & defending it in public
- **scientific** =?

Scientific =

- based on, and embedded in existing research (literature review, prior work, existing theory and research frameworks)
- looking into well-contemplated research questions and/or hypotheses
- conclusions and recommendations that take the field of **cartographic science** further
 → more than "science with some maps"...
- using **proper scientific methodology** to answer said questions

Science defined

	ACTUALLY PRETTY EASY TO FIND OUT	VERY HARD, BUT THERE HAVE BEEN RECENT BREAKTHROUGHS	EXTREMELY HARD, CURRENTLY UNSOLVED
SOUNDS BORDERLINE UNSOLVABLE	HOW MUCH DOES THE EIFFEL TOWER'S GRAVITY DEFLECT BASEBALLS IN BOSTON?	WHAT TIME OF YEAR DID THE CRETACEOUS IMPACT HAPPEN?	HOW CAN RELATIVITY BE RECONCILED WITH QUANTUM MECHANICS?
SOUNDS PRETTY HARD, BUT YOU'D ASSUME THAT SOMEONE KNOWS	WHERE WAS MARS IN THE SKY FROM PARIS ON THE DAY THE EIFFEL TOWER OPENED?	HOW MANY ANTS ARE THERE?	HOW DOES TYLENOL WORK?
SOUNDS LIKE IT WOULD BE EASY TO LOOK UP	HOW TALL IS THE EIFFEL TOWER?	HOW DOES GENERAL ANESTHESIA WORK?	WHY DOES YOUR HAIR GET A STATIC CHARGE WHEN YOU RUB IT WITH A BALLOON?

Neither approach is perfect. See e.g. [Langstons Ant](https://xkcd.com/2682/) for an example of how reductionism fails...

Scientific method in Cartography?

- Can be based in/on different methodologies, as the discipline is on the interface between many sciences
- Thus, your method can be somewhere in the “research space”, between empirical or engineering oriented, reductionist or holistic...

Scientific method in Cartography?

- Can be based in/on different methodologies, as the discipline is on the interface between many sciences
- Thus, your method can be empirical or engineering oriented, reductionist or holistic...

Towards an automatic UAS-based mapping tool for first responders

Scientific method in Cartography?

- Can be based in/on different methodologies, as the discipline is on the interface between many sciences
- Thus, your method can be empirical or engineering oriented, reductionist or holistic...

Materiality in Cartography, A First Attempt to Evaluate its Usefulness

Fig. 2. Unconventional media map of the degradation in the Amazonia. Materials: Cow bones and coins.

Towards an automatic UAS-based mapping tool for first responders

*So what will **you** research...?*

Thesis Topic determination

Topics Examples – Completed Theses

2017

-  **Extraction and Visual Analysis of Negative Traffic Events from Weibo Data**
Chenyu Zuo | [Presentation](#)
[DOWNLOAD THESIS](#)
-  **Spatial Optimization of Wind Farm Allocation**
Dragana Subotic | [Presentation](#)
[DOWNLOAD THESIS](#)
-  **Legend-less Maps**
Md. Marufur Rahman | [Presentation](#)
[DOWNLOAD THESIS](#)
-  **Do Taxi Drivers Choose the Shortest Routes?**
Junyan Li | [Presentation](#)
[DOWNLOAD THESIS](#)
-  **Combining Open-Source Programming Languages with GIS for Spatial Data Science**
Maja Kalinic | [Presentation](#)
[DOWNLOAD THESIS](#)
-  **Glacier Extents of the Greater Caucasus mountain range derived from manual interpretation and digital classification of Landsat satellite data**
Kate Doyle | [Presentation](#)

cartographymaster.eu/theses/

Proposed Thesis Topics

- Research topics are proposed by all 4 members of the consortium:
kartoweb.itc.nl/msc-carto-thesis/topics/
- Selecting a topic determines your supervisor and thus where you will write your thesis:
TUM, TUW, TUD or UT-ITC
- Note that:
 - The programme strives for an even distribution of thesis students over the 4 partner universities
 - Mobility rules make that German and Austrian students with EM scholarship **must** write their thesis at UT-ITC

Cartography – MSc Topics

Proposed Thesis Topics

- Research topics are proposed by all 4 members of the consortium:
kartoweb.itc.nl/msc-carto-thesis/topics/
- Selecting a topic determines your supervisor and thus where you will write your thesis:
TUM, TUW, TUD or UT-ITC
- Note that:
 - The programme strives for an even distribution of thesis students over the 4 partner universities
 - Mobility rules make that German and Austrian students with EM scholarship **must** write their thesis at UT-ITC

Cartography – MSc Topics

Where do these topics come from?

The groups at the 4 partners have a focus on particular research fields:

- **TUM:** Dashboard design, mixed-reality, spatial learning, map-based storytelling, HD mapping
- **TUW:** Location-based services, cartographic storytelling, theoretical cartography, knowledge networks
- **TUD:** Geovisual Analytics (of Location-based Social Media), Artistic Map Design, Automated Generalisation and Multiple Representation
- **UT-ITC:** Atlases/Dashboards, Map Ethics, Mapping time, AR/VR in Cartography, Webmapping, Visualization of automated workflows, General Data visualization

- Mixed Reality based indoor navigation and spatial learning

- Map-based dashboard

RESEARCH FIELDS IN MUNICH

- HD Mapping

RESEARCH FIELDS IN VIENNA

- Location-based services

(a) User is far away - Landmark is not shown

(b) User is close - Landmark is shown.

VIENNA || Footprint (NKDE): All points

Network Kernel Density Estimation.
10 Intervals. Natural Breaks (Jenks).
(Notice: Intervals and color scheme to be adjusted)

1:40,000

- Cartographic storytelling
- Knowledge networks
- Theoretical cartography

A) Geovisual Analytics (of Location-based Social Media)

B) Artistic Map Design

C) Automated Generalisation and Multiple Representation

Break-out

1. make one or more Post-Its with your name on it
2. place them in the “research fields” overview near research areas where *you NOW can “see yourself” doing your thesis...*

BREAK-OUT

Topic determined, what then...?

The research semester

Sources of information

- Thesis semester website:
kartoweb.itc.nl/msc-carto-thesis/
- Procedural handbook

Cartography M.Sc. THESIS ADMIN (PW NEEDED) HOME WEBSITE CARTOGRAPHY M.Sc.

Semester 4: Thesis (cohort 2021)

On these pages we will publish information relevant for the Thesis phase (the 4th Semester) of the Cartography M.Sc.

To do in the coming time [complete timeline here]:

- All theses of (except of the 3 people with an extension) have been submitted and the defenses are ongoing...

MORE INFORMATION:

- A complete timeline
- The topics of the current cohort
- Thesis introduction slides
- Browse the Theses written by earlier cohorts

MORE THESIS RESEARCH INFORMATION:

- The Procedural Handbook for Students
- More info on the ERP
- More info on the midterm presentation
- About thesis hand-in and defence

SPECIFIC INFORMATION PER UNIVERSITY:

- For those writing the thesis @ UT
- For those writing the thesis @ TUW
- The cloudstore for those writing the thesis @ TUD
- The Moodle pages for those writing the thesis @ TUM

Contact the thesis coordinator, Barend Kobbén, by email b.j.kobben@utwente.nl or phone [+31 53 4874253]

Start Requirements

- If you have obtained **at least 90 credits** in the first three semesters, you **have permission** to start with thesis research
- If you have collected between 80 and 89 credits, you ***may obtain*** permission to start, from the Exam Committee:

write a special request for starting your thesis – addressed to Juliane Cron as secretary of the Exam Committee; final decision on your request will be made by the Committee by the start of Semester 4.

- For the 4th semester you need to **enrol and pay** the **registration** fees at the partner university that employs your primary supervisor
[also at TUM as administrating university]
 - beware that for UT-ITC registration fees are high (ca. €6.200) compared with TUM, TUD and TUW !
 - for EM Scholarship student fees will be paid by the consortium

- You will start with the topic ideas and mould them into your own Extended Research Proposal (ERP)
- **Your supervisors will help you write your ERP**
 - Your primary supervisor is assigned to you based on your topic choice
 - In most (not all) cases they are the person that proposed the topic
 - Your supervisor's university will be where you write your thesis
- Depending on the topic, there may be further supervisors, also from other research institutes or companies

Primary Supervisor's role

- Your supervisor is your research *coach* – you are in charge & responsible for the research!
- Consider what the supervisor proposes.
Be *teachable* and learn
- Plan your time (e.g., use Gantt charts, Kanban boards, etc), and check whether you are on schedule. If not, adjust plans and inform your supervisor when necessary
- Ask for feedback on important decisions
- Discuss (intermediate) results
- Note that your supervisor will **not** be available 24/7.
They have other things on their agenda (unlike you ;-)

The Thesis Assessment Board

The TAB consists of at least 3 members:

- The **chair** is a full or associate professor (of the university where you write)
- The second member is your **primary supervisor**,
- The third member is an **external reviewer**, from a university other than your supervisor's.
- other supervisors can be additional members

The TAB **assesses** your work:

- In the beginning: your ERP (Extended Research Proposal), at the proposal defence – you can't start until it's approved!
- At the end: your finalised thesis, at the Thesis Defence – your final mark will be determined by the TAB

Planning the stages

- Stage 1: Propose research questions, design of methodology; present & defend proposal (1st month)
- Stage 2: Literature review, finalizing methodology, setting up experiment/prototyping/user requirements; writing first chapters (± 2 months).
- Stage 3: Data collection/prototyping/user tests, analysis, conclusions; presentation of results (± 2.5 months).

Timing in a Nutshell:

1 Dec	thesis topics list finalised
16 Dec	<i>topic choice & definition workshop</i>
1 January	topic selection by students
during Jan	approval of thesis topic & supervisor
Jan-Feb	<i>academic writing workshops</i>
...	<i>...work on proposal...</i>
1 April	official start of semester 4
17 Apr	Extended Research Proposal (ERP)
27 Apr-1 May	ERP defences
...	<i>....working....</i>
22-26 June	midterm presentation
...	<i>....working....</i>
7 Sep	deadline for submission
23-29 Sep	thesis defences

Q&A

For further information & questions regarding your thesis semester, we have a dedicated website:

kartoweb.itc.nl/msc-carto-thesis

<https://xkcd.com/2268/>

Barend Köbben

Local coordinator at UT-ITC
